Summary

Trying to print "Hello world" everywhere.

I am a software engineering graduate currently enrolled at Mechi
Multiple Campus, Jhapa. I have worked for the development of
various projects as a development partner. I have worked as a
content creator(News Writer) in Bhyakur Express.

My education at Mechi Multiple Campus Jhapa and prior studies at
St. Xavier's Deonia have provided me with a strong foundation in
computer science.

Certain skills I have developed over the years include Data
Structures and Algorithms (Java) and Web Development(React,
NextJs, MySQL). For the skills I might lack, I make up with
determination.

Outside of tech, I enjoy playing music and sports.
